TAIGA®
C O N C E P T

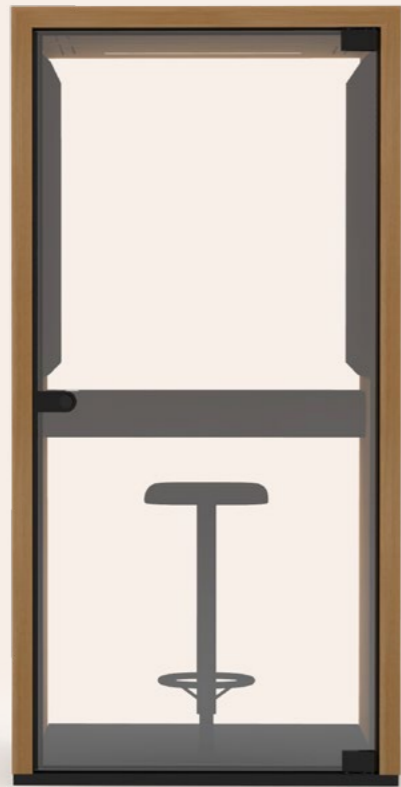

Your Natural Workspace

Taiga Concept aims to create space solutions that reduce distractions and stress, thereby boosting well-being and productivity. The idea is to create the optimal functional surroundings that bring the positive aspects of nature to the office: fresh air, calmness and natural warmth. It's a place where one can relax and re-energize, get inspired, have a meeting or create their best work in private. Our flexible design enables diverse space solutions for individualized needs and preferences, while still preserving the high-quality natural feel.

You don't have to travel far; nature can be brought straight to your office. Welcome to Your Natural Workspace.

www.taigaconcept.com

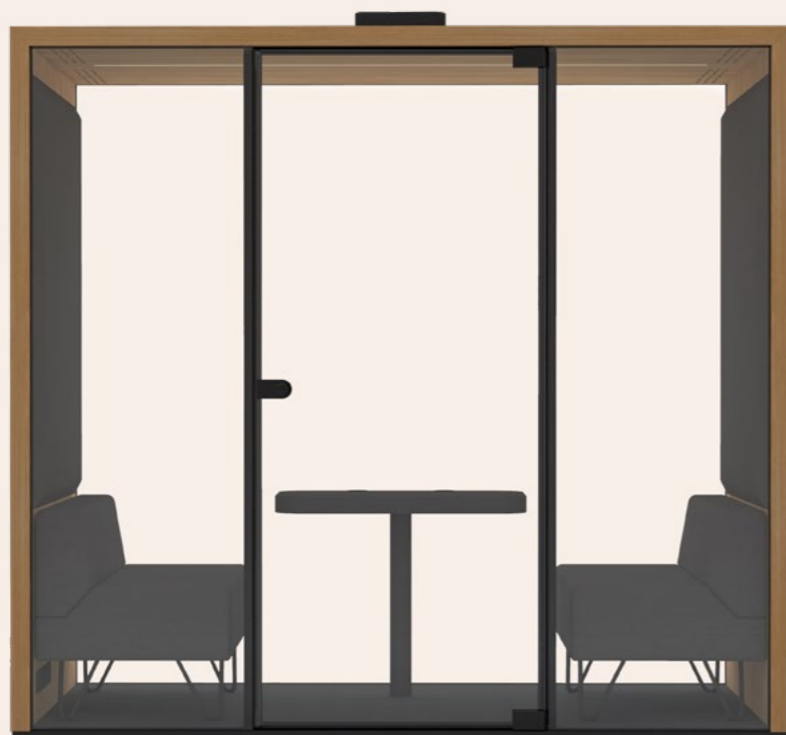

Designed by
**Pekka
Eskelinen**

"The starting point was Scandinavian simplicity and the desire to create a product portfolio that offers timeless design and space. The result was a refined and simple concept, drawn out of Nordic nature and its silence.

Like many Scandinavians, I experience the greatest sense of freedom when I am connected with nature.

There isn't a more relaxing environment than a forest snow-covered or a still lake in the summertime. The connection to nature prevails in every design. That is what makes Taiga Concept so unique."

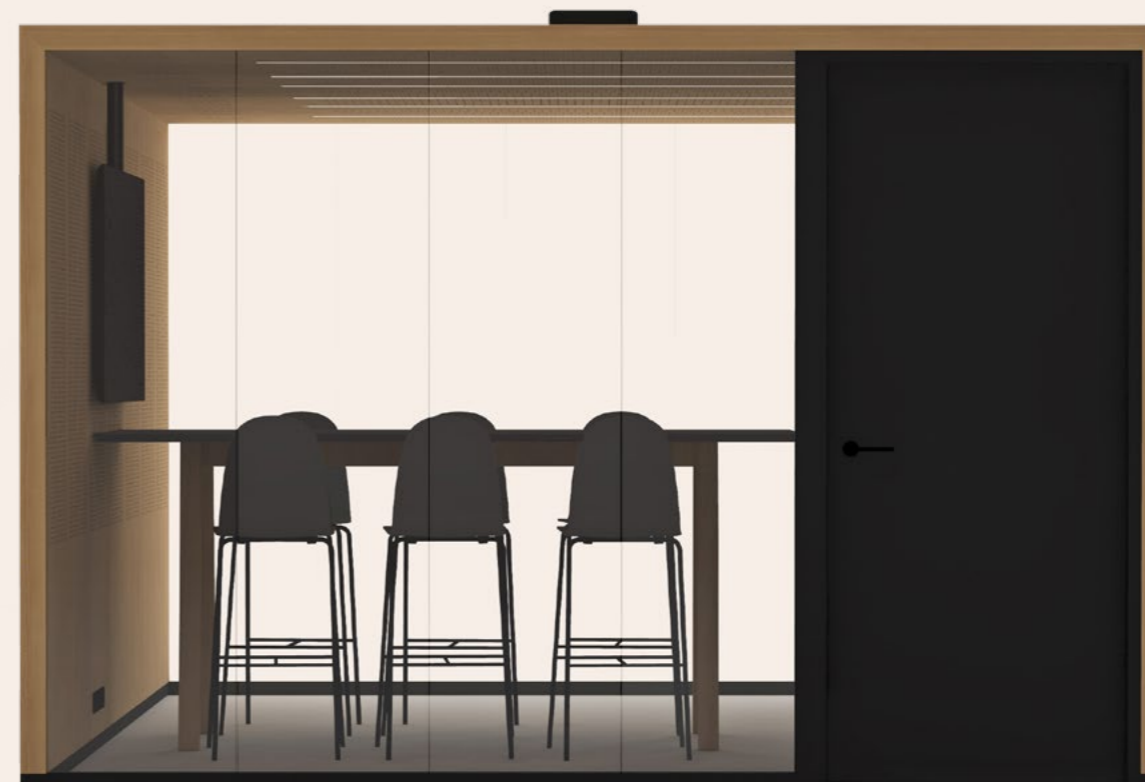

1 m² ... 7 m²

LOHKO BOX

LOHKO BOX is our classic design of compact soundproof workspaces. It covers most office space needs from the classic phone booth up to a 7-person conference room. The high-quality materials from glass and wall elements to acoustic panels are easy to customize to suit any interior. LOHKO BOX workspaces guarantee the efficient use of square footage as it is the optimal combination of Scandinavian minimalism and functionality.

www.taigaconcept.com

10 m² ... 28 m²

LOHKO FLEX

LOHKO FLEX enables large spaces of up to 28 square meters. As the space scales, the smart electrics and the soundproofing systems expand accordingly. Without a floor structure, the space is agile, light and easy to assemble. The soundproofing is integrated in the perforated walls that are easy to clean and allow for flexible attachment of any office accessories. LOHKO FLEX allows you to create large and efficient zones for many uses.

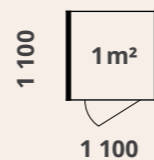

www.taigaconcept.com

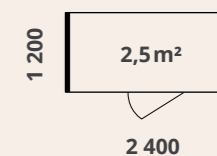

LOHKO BOX 1

A compact phone booth for private phone calls and video conferences. It is the open office classic that helps reduce distractions and boost productivity in a noisy office.

LOHKO BOX 2

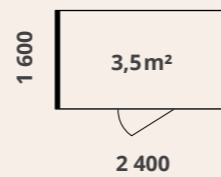

Ideal office booth for 1 or 2 people. Can be set up as a personal workstation or a small meeting room. Optimal for private work.

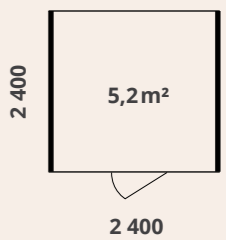

LOHKO BOX 3

Optimal workspace for 1 to 4 people. It can be used as a spacious workstation for one or a productive co-working space..

LOHKO BOX 5

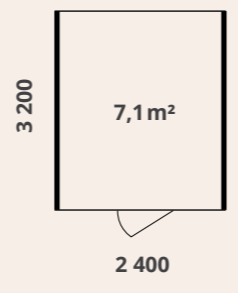

Medium-sized workspace for up to 5 people. It is the ideal place for small teams to brainstorm and work on projects in a comfortable and peaceful environment.

LOHKO BOX 7

Efficient conference room or coworking space for up to 7 people. There's plenty of space for a conference table, tv and anything else your team needs for productive meetings.

LOHKO BOX 2

How Does Your Office Feel?

We know that every office and workplace culture is different. That is why our product portfolio is versatile and allows for individualised solutions. With Taiga's Lohko workspaces, you can create your dream office where individual and task-specific needs are taken into consideration.

Your
Natural
Workspace

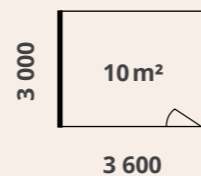

Timeless Design For The Modern Office

We are passionate about Scandinavian Design. No matter the trend, we will always follow a minimalistic approach. That is why our workspaces can be used in all kinds of spaces without the fear of them going out of style.

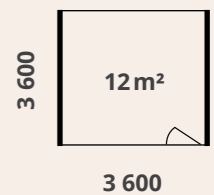

LOHKO FLEX 10

Spacious work environment for up to 8 people. Small enough to fit most offices but large enough to accommodate all furniture to create an efficient workspace or a small conference room.

LOHKO FLEX 12

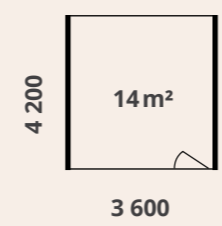

12 square meters of Lohko Flex allow for many uses. It can be used for typical office work or even as a convenient waiting room as it can facilitate up to 10 people.

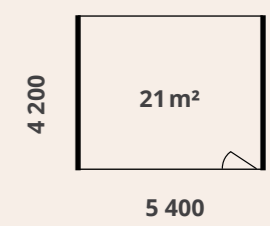

LOHKO FLEX 14

Space for up to 12 people that works well for larger offices. Whether you need a conference room or a silent mini-office within an office, it should provide everything you need.

LOHKO FLEX 21

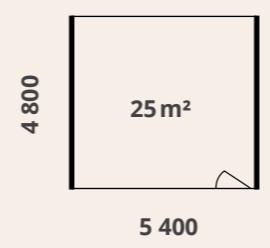

Facilitate a full team of up to 14 people! Flex 21 works conveniently as a conference room or a co-working space for a large team. The large size of this space is ideal for facilitating important conferences or presentations.

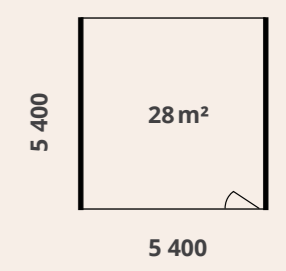

LOHKO FLEX 25

Flex 25 is the second largest in the series. Even at full capacity of 16, you can host productive meetings or conferences with more than enough airflow and comfort. Suitable choice for an office that needs an extra spacious conference room.

LOHKO FLEX 28

The biggest space of the Flex series can accommodate up to 18 people. Whether you need a quiet office, a waiting room or a place to unwind, it should be able to fulfil even the largest space needs of modern work environments.

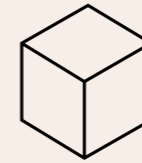

Upgrade Your Office

Lohko workspaces are smart & extremely user-friendly. Truthful to our design, we have preserved the minimalistic approach while constantly developing new features. The added technology is not overwhelming but an elegant part of the entirety, seamlessly integrated into the workspace.

www.taigaconcept.com

Timeless Design

Our office solutions are inspired by timeless design and space. No matter the trend, we will always follow a minimalistic approach that will never go out of style.

Ecological Materials

All of our materials comply with the highest regulations available and, where feasible, are sourced from FSC compliant suppliers.

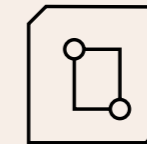

Customize

From colors and surface options to accessories, our booths can be modified for any kind of space. We are committed to creating the dream office for every client.

Natural Acoustic

We aim to create the optimal natural acoustics to work in. While it's important to reduce distractions and noise, preserving a natural feel with the right amount of echo and a sense of space is a priority.

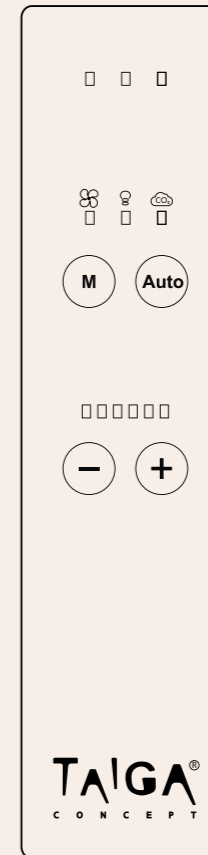

Smart Technology

Step in and the workspace activates. It monitors CO2 levels and adjusts ventilation automatically. In addition, you can make changes through the integrated control panel.

Powerful ventilation

The product is equipped with a powerful and quiet ventilation system that ensures fresh air in the workspace at all times.

Control Your Space

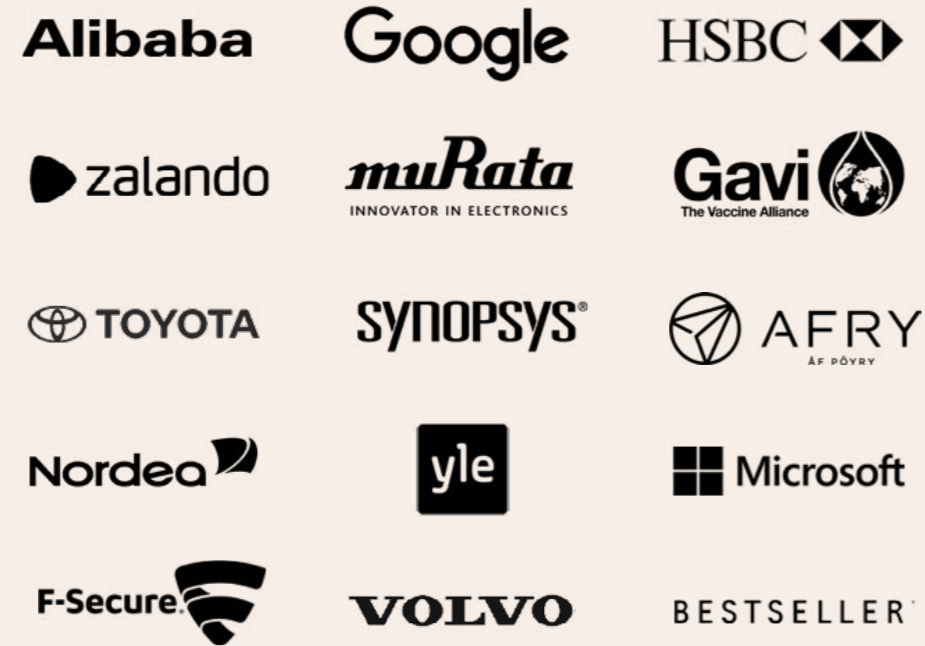

Use automatic mode or control your workspace manually. Lights and ventilation are controllable through the control panel integrated in the product. In addition, the indicator light on the control panel will state the current CO2 levels, so that you will know when adjustments are required. The control panel is a seamless part of the product and easily withstands daily usage.
